THE TRADE MARK

ALABASTINE

A Work of Art

That is what your home can be if you decorate it with Alabastine. For appropriateness is true art; and not only can you make your home decorations appropriate with Alabastine, but you can make them reflect your own taste in a way that is not possible with any other form of wall covering.

Alabastine
The Sanitary Wall Coating

is superior in appearance, in economy, in durability and unique in its wonderful sanitary properties. You should know more about it on all these points, and we therefore extend you a cordial invitation to visit our store, see the Alabastine color charts, and have the Alabastine etched designs (which you can use yourself) explained to you. Come early while our stock of colors is complete.

THE PACKAGE

Isaac N. George Dead

The remains of I. N. George, one of Tazewell's oldest and best known citizens, were buried on yesterday from the Methodist church colored, at 3 p. m. His death occurred at the home of his son-in-law, Benj. Robertson, near North Tazewell, where he had been ill since early last fall. It will be recalled that he was injured while working on the new court house fence last year, to which no doubt his death was chiefly due.

"Ike" George was a man of more than ordinary intelligence, a skillful and trustworthy stone mason, and had the respect of both white and colored people. He leaves a large family of children, all of whom were here at the burial but one son, who lives in Michigan, on account of sickness. Deceased's wife died about two years ago.

FERTILIZER INSPECTOR HERE.

One of the state fertilizer inspectors, Mr. M. K. Montague was in Tazewell the 14th and 15th inspecting the fertilizers for sale in the county. He reports having inspected all brands between Lynchburg and Bristol by way of Big Stone Gap and Norton to this place, but will continue this week, as shipments of new fertilizers come continually into the market. Mr. Montague, in being connected with the agricultural department, is personally acquainted with Hon. G. W. Koerner, commissioner of agriculture, and states that Mr. Koerner's work is of inestimable value to the farmer who is interested enough to take advantage of the information Mr. Koerner is able to furnish and further finds the sentiment favorable to Mr. Koerner being retained as commissioner.

Do You Want

Fertilizers

The seed determines the character of the crop, the fertilizer its size and quality. Great advances have been made in recent years by judicious seed selection and plant breeding. By this means many disease resistant varieties of corn, potatoes, wheat and other crops have been created and the farmers profits thereby increased. The same judgment extended to the selection of fertilizers will pay as well. We are in the fertilizer business and can help you in making the right selection. Don't forget we want your wool. Sacks furnished free.
